

## VISION

The animal industry becomes a fully integrated commercial sector producing quality food from animal products towards national self-sufficiency and export.

## MISSION

We are committed to the growth of a sound animal industry to supply quality and safe food from animal products for national consumption and exports through the provision of quality veterinary services from motivated, skilled and creative individuals.

## OBJECTIVES

To prevent, control and eradicate animal and zoonotic diseases

To ensure that foods of animal origin are clean, wholesome and fit for human consumption

To promote the growth and development of a sound animal industry

To promote the growth and development of the animal feeds industry

To ensure the welfare and well being of all animals
